1979 National ZIP Code and Post Office Directory

This year's newly combined ZIP and Post Office Directory offers much information not previously included in past editions of the ZIP Code Directory. It combines ZIP code and post office information previously published separately. All information from the two previous directories is retained and updated, along with new and additional information formerly not found in either. Complete information is given for using the ZIP code system, including the proper ZIP code for any known address. Information is also included on U.S. Postal Service facilities and organization, basic procedures, and postal abbreviations. Official lists show all named U.S. postal branches and post offices, and community post offices. This volume contains a wealth of information for all who use the Postal Service. 1979. 1876 p.

Living on a Few Acres, Yearbook of Agriculture, 1978

America's history has seen population shifts from country to city, and then back to the country again. Today, Americans are once again populating rural areas at a faster rate than the nation's cities. There are satisfactions, and some pitfalls, too, for those who seek out a life on the land; and this hardnosed, practical guide discusses both in a realistic manner. The book's 48 illustrated chapters are authored primarily by specialists from the Department of Agriculture, its extension service, or state land grant universities. This book, intended for those who live in the country, but derive their principal income from sources other than the land, includes chapters on part-time farming, improvements, acquiring and disposing of rural property, raising animals, and more. Don't make your move to the country without "Living on a Few Acres." 1978. 472 p. il.

The Back-Yard Mechanic, Volume One

This magazine-style booklet is one of an auto maintenance series published by the Air Force. It is designed as an aid to the novice, but also provides useful tips and reminders for the more experienced mechanic. Each article includes safety tips, tools you will need, the proper way to use them, maintenance inspections, repairs, and more. Articles are written in an informal, easy-to-understand style, and each is fully illustrated. Volume One includes articles on oil and lubrication, transmissions, disc brakes, radiators, emission control devices, vacuum gauges, batteries, automatic chokes, and more. This booklet is one that can pay for itself while it teaches you how to repair your own car—and keep it out of the shop. 1976. 57 p. il.

The Back-Yard Mechanic, Volume Two

Volume Two of the Back-Yard Mechanic is slightly more involved than its popular predecessor, Volume One. It also covers different repair items, including basic tune-up, final tuning, drum brakes, power brakes, brake hydraulic systems, air conditioning, ignition systems, spark plugs, and carburetor. Each article is well-illustrated, includes safety tips, tool usage, and more. An hour under the hood with this booklet could be the best thing that ever happened to your car. 1978. 75 p. il.

U.S. Industrial Outlook, 1979

This latest edition of the Commerce Department's annual Industrial Outlook presents fundamental facts about business, distilled from research and analyses by more than 100 business experts. Also included are discussions of imports and exports; current and predicted industry and product shipments; changes in supply and demand; developments in domestic and overseas markets; technological advances; employment trends since 1967; and capital investment to improve efficiency, increase output, and reduce pollution. 1979. 560 p. il.

Preface

In response to requests by the library community and the Depository Library Council to the Public Printer, the Assistant Public Printer (Superintendent of Documents) in the summer of 1974 directed the Library Division to join the Ohio College Library Center's on-line cataloging network, convert to the MARC format, and catalog according to Anglo-American cataloging rules (AACR).

The *Monthly Catalog* utilizes AACR and Library of Congress main entries. Subjects are derived from *Library of Congress Subject Headings* 8th edition and its supplements. The catalog consists of text and four indexes—author, title, subject, and series/report number.

The Government Printing Office considers the *Monthly Catalog* to be an evolving publication. Its scope and timeliness will continue to be of prime importance.

LIST OF GOVERNMENT AUTHORS

The alphabetical list in the preliminary pages locates the catalog sequence of documents issued by a specific agency. This list is compiled each month and includes only Government authors of documents received and cataloged during that time span.

INDEXES

Entries in the Monthly Catalog are indexed for access by author, title, subject, and series/report:

Author index: An alphabetical list of personal authors, editors, co-authors, corporate authors, and conferences.

Title index: An alphabetical list of titles, series titles, and sub- or alternate titles.

Subject index: An alphabetical list of subjects derived from Library of Congress Subject Headings.

Series/report index: An alphabetical list of report numbers and series statements.

A margin index on the back cover locates the four listings. Cumulative indexes are published semi-annually and annually. Titles in all indexes are followed by the text entry number where more detailed information is available.

General Information

The Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402, is authorized by law to sell copies of Government publications. A 25 percent discount is allowed to purchasers of 100 or more copies of a single publication mailed to one address. Bookdealers, buying for the purpose of resale, may receive the same discount regardless of quantity if the publications are mailed to their place of business. No discount is allowed when the publications are mailed to a third party unless in quantities of 100 or more, or on several periodicals or groups of publications which fall into a special pricing category.

PRICES

The prices of all U.S. Government publications sold by the Superintendent of Documents are established by the Public Printer in accordance with Title 44 of the United States Code.

Prices are subject to change and the prices charged on your order will be those in effect at the time your order is processed. As it is not feasible to manually correct the prices in the publications affected by price changes, the prices charged on your order may differ from those printed in the publications.

Although the issuing agencies generally know about price changes, some agencies inadvertently continue to publish announcements, order forms, and catalogs which contain erroneous prices. Frequently, the news media publish articles with erroneous or outdated prices.

PRICE LIST

There is no general price list of public documents, but numerous bibliographies have been prepared on special subjects and these will be furnished, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the subject bibliographies, the Office of the Superintendent of Documents issues a monthly list of Selected United States Government Publications for sale by the Superintendent of Documents. Each list contains annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL PUBLICATIONS

Subscription service has been implemented for the following groups of Congressional publications: House and Senate Documents; House and Senate Hearings; House and Senate Reports on Public Bills; House and Senate Reports on Private Bills; Public Bills; Private Bills; Public Laws; and Private Laws. In most cases, single copies of publications in these groups of Congressional publications are not sold. Sales copies of a few of the more important ones are printed, and you will find the sales prices listed in the individual entries. The current subscription prices may be obtained from the Superintendent of Documents.

How To Order Publications

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a "for sale" statement in the text entries. Those Congressional publications which are not for sale may be obtained from the responsible Committee, or from the House or Senate Documents Room. Entries for publications sold by National Technical Information Services include a statement to that effect. Unless otherwise indicated, publications are distributed by the issuing office which appears immediately before the publication date in each entry. Additional information necessary for procuring documents appears above or within text entries. Requests to issuing offices should contain titles and dates of publications.

Do *not* use the L.C. card number in ordering publications.

HOW TO REMIT

Remittances for Government Printing Office sales documents should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by check or money order. Publications cannot be mailed in advance or receipt of remittance. Foreign remittances should be made by International Postal Money Order, by draft on a United States or Canadian bank, or by UNESCO Coupons. All remittances should be made payable to the Superintendent of Documents.

Orders received with postage stamps, International Response Coupons, or foreign money will be returned.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of $50.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, and the amount of charge.

No charge is made for postage on documents forwarded to points in United States and its possessions. There is a special handling charge on all orders mailed to other countries. The charge is one-fourth of the current selling price of publications and subscription services ordered. This is to cover the special handling required to comply with the customs and international mailing regulations.

USE STOCK NUMBERS FOR BETTER SERVICE

Because we now warehouse, store, and pick publications by their stock numbers (S/N), we can process your orders more quickly and accurately if you order by stock number and title. If you don't know the stock number, then order by title and the classification number which appears above each entry. Congressional documents and reports should be ordered by title together with the document or report number and the Congress, e.g., 94–1:H.doc.1.

LIBRARY CLASSIFICATION OF GOVERNMENT DOCUMENTS

The classification given above entries for departmental publication is that used in the Library Division of the Office of the Superintendent of Documents. The shilling mark (/) separates what ordinarily would be superior or inferior numbers or letters. It is not practicable to print these numbers or letters as *superiors* or *inferiors* in the Monthly Catalog.
